FREE & CONFIDENTIAL

What are STIs?

Sexually transmissible infections (STIs) are infections that can be passed from person to person through sex.

NO SYMPTOMS?

No worries, you could still have an STI!

THE ONLY WAY TO KNOW IS TO Get tested!

Talk to your doctor. Anything you say is confidential, and your doctor cannot tell anyone.

IF YOU ARE HAVING SEX, GETTING TESTED REGULARLY IS IMPORTANT TO KEEP YOURSELF & YOUR PARTNER HEALTHY!

What to Expect

Signs to look for:

- ✓ ITCHING
- ✓ DISCHARGE
- ✓ SORES
- ✓ PAIN
- ✓ FEVER

Urine Test

Blood Test

Swab Test

Why get tested?

- ✓ Get peace of mind about your sexual health
- ✓ Protect yourself and your loved ones
- ✓ Catch and treat infections early to avoid complications

Stay Safe & Protected

- Always use a condom when getting intimate
- Use water-based lube to help prevent tears
- Make sure you and your partners get tested regularly
